Press Release

The Jaffrey Fire Department kicked off the 2009 fire prevention week with its annual all you can eat breakfast. The breakfast serves two roles for the Fire Department. It serves as an open house for the community to come and see the fire station and meet the members of the fire department and it is the kick off of fire prevention week activities in the local school system. The fire department served breakfast to over 500 hungry visitors who came from all over New England. Smokey Bear was on hand to visit and have pictures taken and all of the Jaffrey Fire Department apparatus was on display for all to see. Through the support of local businesses this event allows the Jaffrey Fire Fighters Company, a fundraising and support organization for the Jaffrey Fire Department to raise money for the purchase of life saving emergency equipment. The breakfast was a great success and we hope to see everyone again next year.
